## Course Objective and Content

|                    |                                                                                                                                                                                                                                                                                 |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Course Objectives: | This course aims to improve students' Arabic grammar and communication skills at the pre-intermediate level. Specifically, it focuses on teaching the use of modern Arabic in daily life while improving students' reading, writing, listening, speaking and vocabulary skills. |
| Course Content:    | This course covers improving basic effective communication skills through reading, writing, speaking and listening. It also covers cultural beliefs, values and various aspects of everyday life                                                                                |

in Arabic speaking countries.

## Learning Outcomes

The students who have succeeded in this course;

- 1) Students can understand abstract, long, complex structures or any kind of literary text and correspondence, sometimes with the help of the dictionary, and they can recognize the indirect narratives.
- 2) Students can easily find the expressions they need and express themselves naturally and fluently.
- 3) Besides the daily functions, students can use the language flexibly and effectively for academic and professional purposes.
- 4) Students can write well-structured, well-organized, detailed texts and essays on complex issues, where connections and relationships are clearly revealed.

## Course Flow Plan

| Week | Subject                                                        | Related Preparation |
|------|----------------------------------------------------------------|---------------------|
| 1)   | Talking about food                                             |                     |
| 2)   | Talking about measure                                          |                     |
| 3)   | Preparing a shopping list                                      |                     |
| 4)   | Giving simple recipes                                          |                     |
| 5)   | Reserving the table / Dialogues in a restaurant                |                     |
| 6)   | Holidays and festivals                                         |                     |
| 7)   | Talking about the month of Ramadan                             |                     |
| 8)   | Midterm Exam                                                   |                     |
| 9)   | Talking about clothes / Where did you buy this dress?          |                     |
| 10)  | Describing the outfit / Learning new adjectives                |                     |
| 11)  | Describing colors                                              |                     |
| 12)  | Dialogues at the clothes shop                                  |                     |
| 13)  | Dialogues at the wedding party / Talking about the appearances |                     |
| 14)  | Revision Week                                                  |                     |
| 15)  | Final Exam                                                     |                     |
| 16)  | Final Exam                                                     |                     |

|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|---|---|---|
| Program Outcomes                                                                                                                                                                                                                                                           |   |   |   |   |
| 1) Has basic and up-to-date knowledge in the field of dentistry, follows scientific publications, and applies evidence-based data to his/her professional practice.                                                                                                        |   |   |   |   |
| 2) Knows well and effectively uses devices, tools, and materials specific to diagnosis and treatment in the field of dentistry.                                                                                                                                            |   |   |   |   |
| 3) Evaluates the knowledge in the field of dentistry critically, integrates it with the knowledge of disciplines in the field of health, uses it by analyzing and synthesizing it.                                                                                         |   |   |   |   |
| 4) Produces projects related to the field of dentistry, can work with other health disciplines, takes part as a member of the research team and evaluates and reports the results obtained at a scientific level.                                                          |   |   |   |   |
| 5) Uses information that will contribute to the dentistry profession during practice, takes responsibility, and produces solutions in unforeseen situations.                                                                                                               |   |   |   |   |
| 6) Shares, compares, and exchanges dental knowledge with professional colleagues in social and scientific environments in written, verbal, and visual forms.                                                                                                               |   |   |   |   |
| 7) Within the framework of social, scientific, and ethical values including patient privacy, communicates with patients and their relatives, knows all the characteristics of the patient, and recommends the most appropriate treatment with a patient-centered approach. |   |   |   |   |
| 8) Follows technological developments, participates in national and international studies, and shares and presents own observations, experiences, and research to further advance dental practices.                                                                        |   |   |   |   |
| 9) By adopting the principle of lifelong learning throughout the dentistry profession, follows current evidence-based dental knowledge and uses it during his professional practice.                                                                                       |   |   |   |   |

| Course Learning Outcomes                                                                                                                                                                                                                 | 1 | 2 | 3 | 4 |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|---|---|---|
| 10) During dental practice, in cases such as abuse and addiction, performs the treatment by exhibiting the behaviors required by social ethics and legal rules, and collects and records the relevant data.                              |   |   |   |   |
| 11) Uses basic and current knowledge in the field of dentistry during professional practice for the benefit of society within the framework of national values and country realities.                                                    |   |   |   |   |
| 12) In natural disasters and emergency cases, takes the protective measures required by the dentistry profession; performs professional practices that benefit patients and society                                                      |   |   |   |   |
| 13) Generates ideas regarding health policy in dentistry, prioritizes individual and public health, and carries out preventive and therapeutic medical practices within the framework of scientific, ethical, and quality processes.     |   |   |   |   |
| 14) Differentiates the signs and symptoms commonly encountered in the dentistry profession, makes a treatment plan and refers when necessary, and manages diseases and clinical situations regarding their urgency and patient priority. |   |   |   |   |
| 15) Can assume the leadership responsibility of the team he/she works for, manage it following scientific criteria, and support the professional development of the team.                                                                |   |   |   |   |

|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|
| 1) | Has basic and up-to-date knowledge in the field of dentistry, follows scientific publications, and applies evidence-based data to his/her professional practice.                                               |                       |
| 2) | Knows well and effectively uses devices, tools, and materials specific to diagnosis and treatment in the field of dentistry.                                                                                   |                       |
| 3) | Evaluates the knowledge in the field of dentistry critically, integrates it with the knowledge of disciplines in the field of health, uses it by analyzing and synthesizing it.                                |                       |
| 4) | Produces projects related to the field of dentistry, can work with other health disciplines, takes part as a member of the research team and evaluates and reports the results obtained at a scientific level. |                       |
| 5) | Uses information that will contribute to the dentistry profession during practice, takes responsibility, and produces solutions in unforeseen situations.                                                      |                       |
|    |                                                                                                                                                                                                                |                       |

|     |                                                                                                                                                                                                                                                                         |  |
|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| 6)  | Shares, compares, and exchanges dental knowledge with professional colleagues in social and scientific environments in written, verbal, and visual forms.                                                                                                               |  |
| 7)  | Within the framework of social, scientific, and ethical values including patient privacy, communicates with patients and their relatives, knows all the characteristics of the patient, and recommends the most appropriate treatment with a patient-centered approach. |  |
| 8)  | Follows technological developments, participates in national and international studies, and shares and presents own observations, experiences, and research to further advance dental practices.                                                                        |  |
| 9)  | By adopting the principle of lifelong learning throughout the dentistry profession, follows current evidence-based dental knowledge and uses it during his professional practice.                                                                                       |  |
| 10) | During dental practice, in cases such as abuse and addiction, performs the treatment by exhibiting the behaviors required by social ethics and legal rules, and collects and records the relevant data.                                                                 |  |
| 11) | Uses basic and current knowledge in the field of dentistry during professional practice for the benefit of society within the framework of national values and country realities.                                                                                       |  |
| 12) | In natural disasters and emergency cases, takes the protective measures required by the dentistry profession; performs professional practices that benefit patients and society                                                                                         |  |
| 13) | Generates ideas regarding health policy in dentistry, prioritizes individual and public health, and carries out preventive and therapeutic medical practices within the framework of scientific, ethical, and quality processes.                                        |  |
| 14) | Differentiates the signs and symptoms commonly encountered in the dentistry profession, makes a treatment plan and refers when necessary, and manages diseases and clinical situations regarding their urgency and patient priority.                                    |  |
| 15) | Can assume the leadership responsibility of the team he/she works for, manage it following scientific criteria, and support the professional development of the team.                                                                                                   |  |

## Assessment & Grading

| Semester Requirements | Number of Activities | Level of Contribution |
|-----------------------|----------------------|-----------------------|
| Attendance            | 1                    | % 10                  |
| Homework Assignments  | 1                    | % 10                  |
| Midterms              | 1                    | % 35                  |
| Final                 | 1                    | % 45                  |
| <b>total</b>          |                      | <b>% 100</b>          |

|                             |  |              |
|-----------------------------|--|--------------|
| PERCENTAGE OF SEMESTER WORK |  | % 55         |
| PERCENTAGE OF FINAL WORK    |  | % 45         |
| <b>total</b>                |  | <b>% 100</b> |

### Workload and ECTS Credit Calculation

| Activities               | Number of Activities | Preparation for the Activity | Spent for the Activity Itself | Completing the Activity Requirements | Workload   |
|--------------------------|----------------------|------------------------------|-------------------------------|--------------------------------------|------------|
| Course Hours             | 4                    | 4                            | 4                             |                                      | 32         |
| Application              | 4                    | 4                            | 4                             |                                      | 32         |
| Study Hours Out of Class | 4                    | 4                            | 2                             |                                      | 24         |
| Presentations / Seminar  | 1                    | 3                            | 1                             |                                      | 4          |
| Project                  | 1                    | 3                            | 1                             |                                      | 4          |
| Homework Assignments     | 10                   | 3                            | 1                             |                                      | 40         |
| Quizzes                  | 1                    | 2                            | 1                             |                                      | 3          |
| Midterms                 | 1                    | 4                            | 2                             |                                      | 6          |
| Final                    | 1                    | 4                            | 2                             |                                      | 6          |
| <b>Total Workload</b>    |                      |                              |                               |                                      | <b>151</b> |
