

Dentistry (English)			
Bachelor	TR-NQF-HE: Level 6	QF-EHEA: First Cycle	EQF-LLL: Level 6

Course Introduction and Application Information

Course Code:	UNI084		
Course Name:	Teaching English Language Skills		
Semester:	Spring Fall		
Course Credits:	<div>ECTS</div> <div>5</div>		
Language of instruction:	English		
Course Condition:			
Does the Course Require Work Experience?:	No		
Type of course:	University Elective		
Course Level:	<div> <div>Bachelor</div> <div>TR-NQF-HE:6. Master`s Degree</div> <div>QF-EHEA:First Cycle</div> <div>EQF-LLL:6. Master`s Degree</div> </div>		
Mode of Delivery:	Face to face		
Course Coordinator:	Dr. Öğr. Üy. ÜLKÜ KÖLEMEN		
Course Lecturer(s):	Dr. Öğr. Üy. ÜLKÜ KÖLEMEN		
Course Assistants:			

Course Objective and Content

Course Objectives:	<p>The course is designed to equip learners with;</p> <ul style="list-style-type: none"> theoretical knowledge and practical skills about language skills skills to teach reading, listening, speaking, and writing for various educational levels. competencies for selecting, grading and developing instructional materials to teach language skills.
--------------------	---

Course Content:	Foreign language skills, foreign language sub-skills, approaches to teaching language skills, methods of teaching language skills, preparation of a language teaching lesson plan.
-----------------	--

Learning Outcomes

The students who have succeeded in this course;

- 1) To be able to teach language skills to meet daily needs,
- 2) To be able to teach sub-skills related to language skills methodologically,
- 3) To develop language skill practice activities,
- 4) To be able to use the method of teaching skills by following the stages of preparation, development, and personalization

Course Flow Plan

Week	Subject	Related Preparation
1)	Introduction: Nature of Language Importance and Functions of Language	English Language Teaching: Approaches and Methodologies, Chp: 2
2)	The World of English	The Practice of English Language Teaching, Chp 1
3)	Describing the English Language	The Practice of English Language Teaching, Chp 2
4)	Describing Learners	The Practice of English Language Teaching, Chp 5
5)	Describing Teachers	The Practice of English Language Teaching, Chp 6
6)	Describing Learning Contexts	The Practice of English Language Teaching, Chp 7
7)	Midterm	
8)	Popular Methodologies in Teaching Language Skills	The Practice of English Language Teaching, Chp 4
9)	Educational Technology and Other Learning Resources Issues in Language Learning	The Practice of English Language Teaching, Chp 11
10)	Educational Technology and Other Learning Resources Teaching Grammar	The Practice of English Language Teaching, Chp 11 & 13

Course - Program Learning Outcome Relationship

Course Learning Outcomes	1	2	3	4
Program Outcomes				
1) Has basic and up-to-date knowledge in the field of dentistry, follows scientific publications, and applies evidence-based data to his/her professional practice.				
2) Knows well and effectively uses devices, tools, and materials specific to diagnosis and treatment in the field of dentistry.				
3) Evaluates the knowledge in the field of dentistry critically, integrates it with the knowledge of disciplines in the field of health, uses it by analyzing and synthesizing it.				
4) Produces projects related to the field of dentistry, can work with other health disciplines, takes part as a member of the research team and evaluates and reports the results obtained at a scientific level.				
5) Uses information that will contribute to the dentistry profession during practice, takes responsibility, and produces solutions in unforeseen situations.				

6) Shares, compares, and exchanges dental knowledge with professional colleagues in social and scientific environments in written, verbal, and visual forms. Course Learning Outcomes	1	2	3	4
7) Within the framework of social, scientific, and ethical values including patient privacy, communicates with patients and their relatives, knows all the characteristics of the patient, and recommends the most appropriate treatment with a patient-centered approach.				
8) Follows technological developments, participates in national and international studies, and shares and presents own observations, experiences, and research to further advance dental practices.				
9) By adopting the principle of lifelong learning throughout the dentistry profession, follows current evidence-based dental knowledge and uses it during his professional practice.				
10) During dental practice, in cases such as abuse and addiction, performs the treatment by exhibiting the behaviors required by social ethics and legal rules, and collects and records the relevant data.				
11) Uses basic and current knowledge in the field of dentistry during professional practice for the benefit of society within the framework of national values and country realities.				
12) In natural disasters and emergency cases, takes the protective measures required by the dentistry profession; performs professional practices that benefit patients and society				
13) Generates ideas regarding health policy in dentistry, prioritizes individual and public health, and carries out preventive and therapeutic medical practices within the framework of scientific, ethical, and quality processes.				
14) Differentiates the signs and symptoms commonly encountered in the dentistry profession, makes a treatment plan and refers when necessary, and manages diseases and clinical situations regarding their urgency and patient priority.				
15) Can assume the leadership responsibility of the team he/she works for, manage it following scientific criteria, and support the professional development of the team.
