Medicine			
Bachelor	TR-NQF-HE: Level 7	QF-EHEA: Second Cycle	EQF-LLL: Level 7

Course Introduction and Application Information

Course Code:	TIP515										
Course Name:	Internship fo	Internship for Dermatology									
Semester:	Spring										
Course Credits:	ECTS										
	4										
Language of instruction:	Turkish										
Course Condition:											
Does the Course Require Work Experience?:	Yes										
Type of course:	Compulsory	Courses									
Course Level:	Bachelor	TR-NQF-HE:7. Master`s Degree	QF- EHEA:Second Cycle	EQF-LLL:7. Master`s Degree							
Mode of Delivery	Eaco to face										
Mode of Delivery:	Face to face										
Course Coordinator:	Doç. Dr. SÜREYYA BOZKURT										
Course Lecturer(s):	Dr. Öğr. Üy	esi A. Deniz Akkaya Puli	tar								
Course Assistants:											

Course Objective and Content

en analytic analysis in the control of the control of a life and a control of the
To enable students to know the characteristics of skin and venereal diseases in pediatric and
adult patients, to understand the importance of epidemiological features, to apply preventive
medicine measures, to make a pre-diagnosis or diagnosis of diseases that may require urgent
ntervention, and to gain knowledge and skills to provide diagnosis and treatment services at the
primary level.
ac m ni

Course Content:

In the field of Dermatology and Venereal Diseases, it covers the principles of symptoms and findings, diagnosis and treatment of diseases in patients in a way that includes the learning objectives specified in the Core Education Program. It includes theoretical lectures, bedside applications, service visit, student presentation, case discussions.

Learning Outcomes

The students who have succeeded in this course;

- 1) Can integrate the necessary knowledge, skills, attitudes, and behaviors from basic and clinical sciences, behavioral sciences, and social sciences to develop competencies in clinical decision-making and the management of patients and diseases for both common and rare but potentially life-threatening or urgent clinical conditions. This includes explaining the characteristics and epidemiology of dermatological and venereal diseases, describing the differential diagnosis of skin lesions, outlining the diagnosis, treatment, follow-up, and prevention of sexually transmitted diseases, and listing rare skin disorders and tumoral diseases.
- 2) Can explain the mechanisms of the development of clinical conditions, signs, and symptoms by relating them to the normal structure and functions of the skin and its appendages.
- 3) Can perform basic medical practices.
- 4) Can take a general and problem-focused medical history.
- 5) Can perform a general and problem-focused physical examination.
- 6) Can explain the process of maintaining patient records, reporting diseases, and notifying relevant authorities.
- 7) Can discuss the approach to selecting laboratory and imaging investigations, apply those that can be performed in a primary healthcare setting, describe the method for requesting those to be conducted at external institutions or secondary care facilities, interpret the results, and discuss differential or definitive diagnoses along with initial treatment approaches.
- 8) Can discuss the management of health status.
- 9) Can list screenings based on requirements.
- 10) Can discuss the differential diagnosis of clinical conditions requiring secondary healthcare and describe the referral criteria.
- 11) Can discuss preventive healthcare practices.
- 12) Can demonstrate awareness of the principles required for professional and ethical approaches in healthcare service processes.
- 13) Can explain evidence-based medical practices in the healthcare of individual patients.
- 14) Demonstrates independent study and learning competencies.

Course Flow Plan

Week	Subject	Related Preparation
1)	Theoretical Lectures: Internship Presentation Skin structure, Dermatological Terminology, Dermatological Examination Eczema What Is Your Diagnosis? Acne Bacterial Skin Diseases Papulosquamous Diseases Viral Skin Diseases Fungal Skin Diseases Dermatological Emergencies Bullous Diseases Case Discussion: A Case Presenting with Bullous Rash Connective Tissue Diseases Practical Training: Bedside clinic	There is no preparation-course material.

Theoretical Lectures: Vasculitis and Behçet's Disease Syphilis and Sexually
Transmitted Diseases Case Discussion: A Case Presenting with Genital Ulcer Skin
Tumors I-II What Is Your Diagnosis? Case Discussion: Skin Findings of Systemic
Diseases Pigmentation Disorders Case Discussion: A Case Presenting with Hair Loss
and Nail Changes Case Discussion: Fever-Rash Child Case Discussion: A Case
Presenting with Pruritus Parasitic Skin Infestations Dermatological Treatments What Is
Your Diagnosis? Case Discussion: Genetic / Neurocutaneous Skin Disease A Case
Applying with Suspicion Case Discussion: Cases and Prescription Examples What Is
Your Diagnosis? Exam Practical Training: Bedside clinic

There is no preparation-course material.
