

Medicine			
Bachelor	TR-NQF-HE: Level 7	QF-EHEA: Second Cycle	EQF-LLL: Level 7

Course Introduction and Application Information

Course Code:	TIP609						
Course Name:	Psychiatry						
Semester:	Fall						
Course Credits:	<div>ECTS</div> <div>5</div>						
Language of instruction:	Turkish						
Course Condition:							
Does the Course Require Work Experience?:	Yes						
Type of course:	Compulsory Courses						
Course Level:	<table> <tr> <td>Bachelor</td><td>TR-NQF-HE:7. Master`s Degree</td><td>QF-EHEA:Second Cycle</td><td>EQF-LLL:7. Master`s Degree</td></tr> </table>			Bachelor	TR-NQF-HE:7. Master`s Degree	QF-EHEA:Second Cycle	EQF-LLL:7. Master`s Degree
Bachelor	TR-NQF-HE:7. Master`s Degree	QF-EHEA:Second Cycle	EQF-LLL:7. Master`s Degree				
Mode of Delivery:	Face to face						
Course Coordinator:	Prof. Dr. NURİYE TAŞDELEN FİŞGİN						
Course Lecturer(s):	Prof. Dr. Bahadır Bakım Dr. Öğr. Üyesi Sibel Bolluk Dr. Öğr. Üyesi Merve Setenay İris Koç						
Course Assistants:							

Course Objective and Content

Course Objectives:	The aim of this internship is to train physicians in the field of Psychiatry who can adopt and practice preventive and protective medicine, who can diagnose and regulate the treatment of common or rare but life-threatening or emergency clinical conditions, who can make the differential diagnosis of clinical conditions requiring secondary health care and who can regulate the conditions of referral.
--------------------	--

Course Content:	It covers the principles of symptoms and signs, diagnosis and treatment of diseases in adult patients, including the learning objectives specified in the Core Education Program in the field of psychiatry. It covers bedside applications, treatment applications, Emergency intervention, Prescribing, Participating in seminars and department meetings, Case discussions.
-----------------	--

Learning Outcomes

The students who have succeeded in this course;

- 1) can integrate the knowledge, skills, attitudes, and behaviours gained from basic and clinical sciences, behavioural sciences, and social sciences in the form of competencies in clinical decision making, patient and disease management processes of common or rare but life-threatening or emergency clinical conditions.
- 2) can take a general and problem-oriented history.
- 3) can perform a general and problem-oriented physical examination.
- 4) can keep patient records, prepare reports, and report diseases.
- 5) can select and order laboratory and imaging examinations, can do the basic tests in primary health care setting, request those that can be applied in advanced service laboratories or secondary care setting, interpret the results, make differential or definitive diagnosis; regulate/carry out treatment; provides health care services in accordance with the principles of good clinical and laboratory practices.
- 6) can manage healthy states.
- 7) can make differential diagnosis of clinical conditions requiring secondary health care and regulate referral conditions.
- 8) can adopt and carry out the necessary principles of preventive and protective medicine in primary health care.
- 9) can adopt the necessary principles in terms of professional and professional approach and implements the required competencies.
- 10) can practice evidence-based medicine in the health care of the individual patient.
- 11) can demonstrate independent working and learning competencies.

Course Flow Plan

Week	Subject	Related Preparation
1)	Patient monitoring Patient visit Policlinic	There is no preparation-course material.
2)	Patient monitoring Patient visit Policlinic	There is no preparation-course material.
3)	Patient monitoring Patient visit Policlinic	There is no preparation-course material.
4)	Patient monitoring Patient visit Policlinic	There is no preparation-course material.
