

Learning Facilities

Our career office which serves within the Student Centre (ÖMER) organizes many short-term and long-term training programs to increase the individual development and employment skills of our students. Seminars and workshops are organized to contribute the students' first-step career planning knowledge such as CV preparation, interview techniques and effective communication. Long-term trainings that provide participation certificates for students are also conducted about the subjects of 21st century competencies such as leadership, human relations, teamwork, ethics. For the targeted #istinyeli graduate profile, some of the activities are organized by our career office and they are realized by the internal staff of our unit and by the experts working in our institution; while for some studies, support is received from business sector professionals. The students and business representatives are frequently brought together.
