

Digital Game Design (English)			
Bachelor	TR-NQF-HE: Level 6	QF-EHEA: First Cycle	EQF-LLL: Level 6

Program Information

Istinye University Digital Game Design Program is created to provide the national and international sector with human resources who have the necessary qualifications, who are creative, who can achieve success by creating pioneering projects and designs with individual and team work. It offers a perspective that balances the design, software and art branches of digital games by considering an interdisciplinary education approach, especially in partnership with the Faculty of Engineering. In the light of the information obtained during the program, our Digital Game Design program offers the opportunity to take part in the digital game industry that has evolved into many sub-branches. To reflect the programs creative view, our program provides activities within the laboratories and our Digital Game and Animation Technologies Research and Development Center.
