

Economics (English)			
Bachelor	TR-NQF-HE: Level 6	QF-EHEA: First Cycle	EQF-LLL: Level 6

Program Information

Economics, a branch of science that constantly renews itself by keeping up with the changing world conditions, is like a key that opens every door for those who want to understand the essence of life, solve social dynamics, and shape the world economy. Istinye University Department of Economics not only follows this change and transformation process, but also offers a wide range of courses from macroeconomics to financial technology, from development economics to game theory, with its strong academic staff in order to raise individuals who can keep up with the times and take responsibility in decision-making mechanisms when necessary.

Additionally, there is a compulsory internship in the 8th semester so that students can test their theoretical knowledge in practice.

The department, whose medium of teaching is English, is 5 years long, including one year of preparatory education and 4 years of undergraduate education.
