

Management Information Systems			
Bachelor	TR-NQF-HE: Level 6	QF-EHEA: First Cycle	EQF-LLL: Level 6

Program Information

Information and communication technologies connect individuals and institutions to each other and touches every aspect of life. The Management Information Systems Undergraduate Program was established to train operators to work in the field of information and communication technologies. The program provides both theoretical and practical training in business management and computer science. Students will be equipped with analytical, technical, managerial, communicative and professional knowledge and skills they need as business informatics experts and system analysts.
