

Industrial Engineering (English)			
Bachelor	TR-NQF-HE: Level 6	QF-EHEA: First Cycle	EQF-LLL: Level 6

## Program Information

The Department of Industrial Engineering program at Istinye University aims to equip students with knowledge and skills to be able to design, implement and improve integrated and complex systems. The program is one of the few of its kind and thanks to its strong curriculum, vibrant research environment and qualified academic team. Students are able to choose from among an extensive pool of elective courses to specialise in areas of their interest, such as, but not limited to, production and service systems design, industrial data analytics, supply chain and logistic systems optimization, quality control, and financial engineering. Having completed the program, students will be well-equipped to start a promising professional career and/or pursue an academic career.
