

Molecular Biology and Genetics (English)			
Bachelor	TR-NQF-HE: Level 6	QF-EHEA: First Cycle	EQF-LLL: Level 6

## Program Information

Education in the Molecular Biology and Genetics Undergraduate Program starts with basic courses such as mathematics, physics, chemistry and biology, and continues with microbiology, biophysics, biochemistry, basic genetics, molecular genetics, cell biology, molecular biology of the cell, recombinant DNA technology, human genetics, molecular evolution, bioinformatics and biostatistics courses. There are compulsory laboratory courses in every semester of the education plan. Students can differentiate their special interests in Molecular Biology and Genetics with various elective courses in the last two years of education.
