

Anatomy (Master) (with Thesis)			
Master	TR-NQF-HE: Level 7	QF-EHEA: Second Cycle	EQF-LLL: Level 7

Program Information

The master's program will enable the training of individuals who can follow the world scientifically, who have the ability to establish, solve and develop hypotheses about anatomy by using their knowledge in the best possible way throughout the education process, who can produce new examples and academic outputs for our country, and who have internalized the philosophy of science.
