

Physiotherapy and Rehabilitation (DR)			
PhD	TR-NQF-HE: Level 8	QF-EHEA: Third Cycle	EQF-LLL: Level 8

## Program Information

The doctoral program in the Department of Physiotherapy and Rehabilitation within the Institute of Health Sciences started in the 2021-2022 academic year. The language of instruction of the program is Turkish. Graduates who complete this program can independently conduct an original research in various specialized fields of physiotherapy and rehabilitation, interpret scientific events with a broad and deep perspective, and determine the necessary steps to reach new methods and applications. They can carry their high-level skills acquired in education and research to their national and international clinical and academic studies.
