

Chemistry (DR) (English)			
PhD	TR-NQF-HE: Level 8	QF-EHEA: Third Cycle	EQF-LLL: Level 8

Program Information

Biochemistry, Pharmacy, Science Education, Genetics and Life Sciences Programs, Food Science and Technologies (Agriculture), Food Sciences (Faculty of Food), Food Engineering, Chemistry, Chemical Engineering, Applied Chemistry, Chemical Engineering and Applied Chemistry, Chemistry Teaching, Chemistry and Biological Engineering, Chemistry and Process Engineering, Chemistry-Physics disciplines of the professions will meet the need for theoretical and applied training at the level of expertise in the field of Chemistry.

A Scientific Preparation Program is applied to graduates who have received undergraduate education outside of these departments.

The doctorate program accepts students with a master's degree with thesis, as well as with a bachelor's degree.

At the end of the education, the student who fulfills the conditions specified in the Istinye University Postgraduate Education Regulation and successfully completes the courses and the thesis process is awarded a Chemistry Doctorate diploma.
